

Science Fundraiser

October 31, 2011

Dear Parents,

Each year our students convey their desire to do memorable and interesting labs in science class and to have some sort of educational field trip experience. Research shows students gain a better understanding of the real world by being engaged as an active participant in these types of hands-on activities. Therefore, our fundraiser goal is twofold; to raise funds for science lab supplies not covered by the district to prepare our students for the 21st century skills and to offset the cost of our year-end field trip to reinforce biological concepts learned throughout the year.

For the past four years we have partnered with Madeline Creations for our science fundraiser and have had positive results. Parents rave about the high quality of the note (greeting) cards and the uniqueness of their design. This year, we have again chosen to do another fundraiser through Madeline Creations. We receive a 25% profit for each gift box set of cards the students sell which allows for great potential to generate sales for our science class.

We will conduct the fundraiser for a 2 week period beginning Tuesday, November 1, 2011 through Tuesday, November 15, 2011. This year we will attempt to conduct our fundraiser virtually in an effort to reach out of town family and friends. All information is available on www.mrskingsbioweb.com/fundraiser.html including viewable/downloadable brochure in pdf format, sales tracking sheets and an informational PowerPoint. Please have your child collect the money for the sets at time of sale and have all checks made out to Eau Gallie High School (EGHS).

We encourage you to forward the brochure fundraiser link <http://www.mrskingsbioweb.com/fundraiser/Brochure.fundraiser2011.pdf> to all your friends, family, business associates, and community members and have them place orders through your child before the November 15th end date. We are hoping for a great turn out this year. All gift box sets will be delivered to Mrs. King by the end of November, just in time for students' customers to use them as Christmas cards or gifts.

Thank you in advance for your support!

Mrs. Kristin King
