

Place your order!!!

You are going to open your own restaurant at Animal Kingdom. Disney wants the theme for your restaurant to be **Ecology!**

Your task today is to design the menu for your ecological restaurant.

Create a foldable to demonstrate your knowledge of food webs and trophic levels within the webs. SC.912.L.17.9

 Your restaurant menu may be a tri-fold or two-page menu format. *Give your restaurant a catchy name.*

 Your restaurant offers the following menu items:

5 appetizers; 6 lunch entrees; 7 dinner entrees; 3 desserts

 Each menu item must include an appropriate price in dollars as well as a description of each menu item.

 You must include **3 beverages** (non-alcoholic) at the end of your menu.

 If the menu item has a human acting as a *first order* consumer (herbivore) put an **H** next to it. If the human ordering a menu item would be acting as a second order consumer, write **C** for Carnivore or **O** for omnivore next to the item. *Dairy may be considered an omnivore food item.*

 **BE CREATIVE!!!!** Add colored pictures of the sample food platters.

 Neatness counts! Creativity gets more points!

Resources: online menu from Applebee's, Olive Garden or any other restaurant may be used as a reference or template for your menu.

Item	Score Possible	Score Earned
Your name and period	1	
Restaurant name	1	
Menu items: 5 appetizers 6 lunch items 7 dinner entrees 3 desserts 3 beverages	24	
Label food items of first, second, third, fourth orderconsumers (primary [H], secondary, tertiary, quaternary [C-O])	5	
Creativity	5	
Neatness	5	
Follow directions	5	
Total	46
